Louisville, Kentucky**

Owner's Representative:  
Mr. Taylor Morris  
Symbion, Inc.  
Nashville, Tennessee

Architect:  
Davis Stokes Collaborative  
Brentwood, Tennessee 37015

Construction Duration:  
7 months

Contract Amount:  
\$ 972,725

**Project Description:**

This project consisted of a two-story expansion to an existing outpatient surgery center and medical office building. The first floor addition of two operating rooms doubled the size of the existing facility. An emergency power system was installed for the new addition and to replace the system serving the existing portions of the surgery center. By carefully scheduling and sequencing the work, we were able to tie the two facilities together without interruption.

The second level medical office space provided for future growth and flexibility as the enlarged surgery center was put in service.
