

**Moe's Southwest Grill
Murfreesboro, Tennessee**

Owner:
Scott Portis
Cannon Restaurant Management

Architect:
4 Dzines, LLC
Marietta, GA 30062

Construction Duration:
14 weeks

Contract Amount:
\$226,714

Project Description:

Having successfully constructed middle Tennessee's first Moe's Southwest Grill, Cannon Restaurant Management, utilizing a negotiated contract, hired Wieck Construction, LLC to construct their second fast-casual restaurant. Located in the fastest growing retail district of Murfreesboro, the owner's primary concerns were opening his second franchise per the established budget and schedule.

Completion of this 3,012 square foot tenant-improvement space coincided with the construction of the entire retail center. Again, close coordination amongst suppliers, subcontractors, and city building inspectors remained critical to keep this project on schedule. Our project manager and onsite superintendent, working in concert with the franchisee and kitchen equipment contractor, ensured timely and proper placement of all furnishings, fixtures and kitchen equipment.

Again, Cannon Restaurant Management selected customized furnishings and upscale appointments in keeping with their impeccable taste.
